

Hourly Wind Speed

Wind speed is to be monitored hourly, Event runs from 12noon - 4pm

first wind speed will be taken at 11.00hrs before any equipment is inflated wind speed will be recorded using an anemometer and logged within the below grid. Should wind reach 20mph all inflatables will be deflated and left unused Giant Slide will be deflated if wind speed reaches 15mph (our own safe zone) Manufacturers Recommend operators can operate bouncy castles up in 24MPH winds we have our own safety operations in place for wind speed.

Hourly time	Adult bouncy castle	Giant slide	Mega slide	Small fun run	Large fun run	Kids castle	Castle/slide combo	Adult disco dome	Bungee run	Inflatable kicker
